Senior Cloud DevOps Engineer

AWS Certified DevOps Engineer Professional with 6+ years of experience architecting and implementing multi-cloud infrastructure solutions across AWS and Azure. Proven track record of leading technical initiatives, driving org-wide infrastructure standards, and enabling engineering teams through reusable automation and well-defined deployment patterns.

Work Experience

Senior DevOps Engineer | Arm | 06/2026 – Present

- Administer and maintain GitLab and GitHub Enterprise, ensuring reliability, performance, and availability across the infrastructure and application layers.
- Develop automation and internal applications for GitHub operations, including reporting and enterprise/organization management.
- Develop custom VS Code extensions integrating Arm resources and tooling, including MCP and GitHub Copilot.
- Provide technical support and engineering assistance to Arm hardware and software engineers.

Senior Cloud Engineer | Electronic Arts | 10/2024 – 06/2026

- Lead technical POCs and architecture decisions for critical infrastructure initiatives, presenting to engineering managers, directors, and architects to drive org-wide adoption.
- Own Kubernetes platform infrastructure (13+ EKS clusters, multi-account AWS) supporting hundreds of player-facing services.
- Own GitLab CI/CD platform, enabling standardized workflows for Terraform infrastructure, Helm-based Kubernetes deployments, application delivery, and Vault-integrated secrets management.
- Author reusable Terraform modules from scratch (AWS & Azure), establishing platform standards that enable consistent, production-ready deployments across applications.
- Enable rapid adoption of emerging technologies by establishing infrastructure foundations and documentation that allow teams to independently deploy new capabilities.

DevOps Engineer | BuildASign.com | 07/2021 – 10/2024

- Authored BuildASign's CI/CD pipeline architecture as the company's first DevOps engineer, reducing deployment time and improving team productivity.
- Implemented infrastructure as code using Terraform and AWS CloudFormation to standardize application deployments.
- Collaborated with development and IT leadership to plan and implement the migration of BuildASign's entire application infrastructure into AWS.
- Established BuildASign's processes for container creation and orchestration, in support of a microservices architecture.

Engineering Operations – Private Cloud | SolarWinds | 11/2020 – 07/2021

- Administered high-availability VMware vRealize Automation (vRA) cloud service clusters across 3 major data centers that serve SolarWinds developers around the globe.
- Troubleshoot issues with automated deployments of a wide range of desktop and server operating systems (Windows, Mac, Linux distributions) and services (Active Directory, SharePoint, Exchange, etc.).
- Customized and debugged PowerShell and Ansible automation scripts/playbooks for virtual machine and service deployments.
- Performed vRA service maintenance including patching, upgrades, and monitoring.

Skills and Competencies

Technical Skills

- **Cloud Platforms:** AWS (EKS/ECS, Lambda, RDS, Bedrock, CloudFront), Azure (OpenAI, enterprise applications, Entra ID)
- **CI/CD & GitOps:** Jenkins, GitLab, AWS CodePipeline, ArgoCD
- **Infrastructure as Code:** Terraform, AWS CloudFormation, Helm
- **Container Orchestration:** Kubernetes (EKS), ECS, Docker
- **Automation & Scripting:** Python, Bash, PowerShell, Ansible
- **Observability:** CloudWatch, ELK Stack, Prometheus, Grafana, Fluent Bit, Kafka, OpenSearch
- **Networking:** TCP/IP, DNS, VPC, load balancing, Traefik, NGINX

Personal Enrichment

- Built and maintain a personal virtualized home lab to continuously hone DevOps skills, aiding preparation for the AWS Certified DevOps Engineer Professional and Kubernetes Certified Administrator exams.
- Guest lectured twice at Texas State University on DevOps practices for senior software engineering students.

Certifications

- | | |
|---|---------|
| • AWS Certified DevOps Engineer – Professional
<i>Amazon Web Services (AWS)</i> | 01/2024 |
| • Google IT Automation with Python Professional
<i>Google</i> | 01/2023 |
| • Certified Kubernetes Administrator
<i>The Linux Foundation</i> | 06/2024 |

Education

Bachelor of Business Administration Computer Information Systems Texas State University, San Marcos, TX	2016-2020
• Overall GPA: 3.63
